4- BOOK

We are pleased to announce Jakub Doubal's publication 'Conservation of Plaster Casts'

Jakub ĎOUBAL is Head of Department of Restoration and Conservation of Stone at University of Pardubice (Czech Republic).

This book, which includes a wide range of illustrations, focuses on the issues associated with the conservation, storage and display of plaster casts, reflecting on the past and reporting on the present. It examines the role that plaster itself plays in the process of making a sculpture, outlines the history of plaster casts and deals with the techniques of conservation including cleaning, consolidation, gluing, reintegration and preventive conservation and conservation surveys. The authors refer to the available published knowledge on the subject and add their new findings based on many years of experience and the evaluation of laboratory tests.
